REQUIREMENTS FORM

MetriQ machine-vision inspection system

1. General information

Number	RF-[YYYY-NNN] · Rev. [0]
Customer	
Full legal name	
Plant address (installation site)	
Date filled	

Contacts

Role	Name	Title	Phone / Zalo	Email
Decision maker				
QA				
Production				
Maintenance / electrical				
IT				
Purchasing				

2. Current inspection

Item	Information
Current inspection method	
Inspectors per shift × shifts	
Defects that escape, frequency	
Cost of an escape	
How output and defects are recorded today	

3. Products to inspect

Product	Specification / size (mm)	Weight (g)	Placement on conveyor	Notes

Product	State at inspection (fresh / frozen)	SKUs / sizes	Share of production (%)

4. Quality inspection criteria

Product: name as in section 3, or All. Class: CR = critical, always reject · MA = major, reject · MI = minor, adjustable.

#	Criterion	Requirement	Product	Pass / reject threshold	Class
1					
2					
3					
4					
5					
6					
7					

Who decides borderline parts	
Governing standard / drawing	

5. Line and output

Item	Information
Belt width (mm)	
Belt speed (m/min)	
Output now / max (pcs/min, kg/h)	
Shifts, hours per day	
Reject mechanism	☐ Existing: _____ ☐ None

6. Environment

Item	Information
Area temperature (°C)	
Humidity, steam	
Cleaning method and frequency (dry, wet, washdown)	
Food-safety rules for equipment near product	

7. Power, air, network (IT-OT)

Item	Information
Power at the installation point (V, phase)	
Compressed air (bar)	
LAN / Wi-Fi at the station	
PLC / MES / ERP in use	
Remote access allowed? Tool	
May data leave the plant?	

8. Monitoring, alerts, reports

Output statistics	☐ Hour ☐ Shift ☐ Day ☐ Other: _____
Alert channel	☐ HMI ☐ Tablet ☐ Web ☐ Light ☐ Zalo ☐ Email
Alert recipients	
Where data is viewed	☐ At the line ☐ Office ☐ Phone
Report format	☐ Excel ☐ PDF ☐ Other: _____
Integration	☐ PLC ☐ MES ☐ ERP ☐ Not needed

9. Acceptance targets

Item	Value
Test sample size (pcs)	CR: _____ MA: _____ MI: _____
Max escape rate (%)	CR: _____ MA: _____ MI: _____
Max false-reject rate (%)	
Rate at which targets apply (pcs/min)	
FAT / SAT signed by	

10. Samples and data

Item	Information
Good samples available (pcs)	
Defective samples available (pcs per criterion)	
Borderline samples (pcs)	
Who labels samples	
Photos and video of products allowed	☐ Yes ☐ No
Anonymised images may improve MetriQ	☐ Yes ☐ No
NDA	☐ Signed ☐ Not signed

11. Commercial

Item	Information
Target installation date	
Budget range (VND)	
Approvers (technical, budget, purchasing)	
Supplier registration, number of quotes	
Required payment terms	
Invoice details (name, tax code, address)	

12. Attachments

- ☐ Photos of the line and proposed installation point
- ☐ Line drawing / installation area layout (AutoCAD)
- ☐ Video of production and current inspection
- ☐ Photos of good, defective, borderline products (with ruler)
- ☐ Product drawings / standards

13. Sign-off
